International Symposium Intra Articular Treatment

Alberto Migliore

CONGRESS CHAIRMAN

Director of Unit of Rheumatology
S. Peter Hospital and
Center Research FBF - Rome Italy
President of National Foundation
of ultrasound guided Hip intra-articular
Therapy (ANTIAGE)

Rome
6-8 october
2011

Thursday, 6 October

Opening Ceremony

MAIN LECTURE
Viscosupplementation in hip osteoarthritis: state of the art

MAIN LECTURE
Hyaluronic acid and its mechanism of action

MAIN LECTURE
Viscosupplements in knee OA is cost-effective?

MAIN LECTURE
Delay of TKR after hyaluronate

Welcome cocktail

Friday, 7 October

Sponsored Symposia morning session
Scientific Session

New horizons for intra-articular products

The experience in the use of intra-articular Capsaicine
Clinical experience of Intra-articular IL-1 inhibitor in OA
PRP in OA

Use of botulin toxin for intra-articular therapy

MAIN LECTURE
Intra-articular gene therapy: state of art

May NSAIDS have a role in intra-articular treatment?
Tenoxicam for intra-articular use
Intra-articular clodronate in the treatment of knee osteoarthritis
Perspectives in morphine-derived products for intra-articular administration
Rationale and experience for clinical use of lubricine

Exploring synergisms for viscosupplementation?

Intra-articular treatment and rehabilitation: synergism?
Intra-articular treatment and chondroprotection: synergism?

The role of intra-articular treatment in inflammatory arthritis

Part 1: use of steroids

Intra-articular treatment in Rheumatoid Arthritis
Intra-articular treatment in other Inflammatory Arthritis

Part 2: use of biologicals

The Experience with intra-articular Remicade
The Experience with intra-articular Enbrel
The Experience with intra-articular Humira

Challenging experience in the world of intra-articular practitioners

DEBATE ONE: Controversies in the technique of intra-articular injection

When is it necessary to use US guidance for injecting joints?
When is it optional to use US guidance in injecting joints?

DEBATE TWO: Controversies in the intra-articular management of OA

Can we find any choice criteria for a specific Hyaluronic acid in Osteoarthritis?
Are there predictors of outcome in VS OA?
Viscosupplements: have they the same safety?

Saturday, 8 october

Sponsored Symposia

afternoon session

Connecting Finance, enterprise, research and physicians to improve intra-articular management

Plenary Session

MAIN LECTURE
The challenge of intra-articular treatment: scientific and social/economical aspects

What do we still need for intra-articular therapy?

What does Sports Medicine need?
What do we need for Osteoarthritis management?
What do we need for inflammatory disease management?
What does Pain Medicine need?

Oral communications: Clinical experiences

New drugs for Intra-articular therapy
New medical devices for intra-articular therapy
New delivery systems for intra-articular therapies

Oral communications: New fields of research for intra-articular therapy

Proteomic assays as a tool for new discoveries
New therapeutic Targets
New diagnostic Markers
New prognostic Markers

Practical courses:

Intra-articular ultrasound-guided treatments

Scientific Sessions

- Shoulder
- Hip
- Knee
- MCP joint
- Ankle
- Sacro-iliac

Simultaneously, a large space will be destined to the meeting of small-medium enterprises with clinicians, researchers and investors: this will allow the start-up of several cooperations in order to develop new drugs, new therapeutic targets, new diagnostic kits, new medical devices and delivery.

One to one meetings will be programmed
